## Education for Life

We have high expectations of all our pupils, and achieve outstanding exam results, but there is so much more to education than just exams. These four goals for our pupils shape all that we do at Heritage School:

### Knowledge

Our pupils **enjoy a knowledge-rich curriculum** that celebrates beauty, creativity and excellence and takes advantage of all that Cambridge has to offer;

### Attention

Children **develop the habit of attentive engagement** in our calm, low-tech and purposeful learning environment where books, nature and real world activities are prioritised;

### Ownership

Pupils are encouraged to **take ownership for their learning** and make the most of opportunities to go further;

### Character

We help them to **grow into young people of character** who are resilient, wise and able to manage themselves and their relationships well, and so contribute to the common good.

All of this is inspired by the high ideals of the Christian faith and is possible because of the personal attention pupils receive from our dedicated teachers in small classes.

## Lower Fees

Heritage School is committed to relative affordability; we want to make a rich education available to as many children as possible.

## Screen Free

Routine classroom learning is intentionally low-tech; we don't provide iPads or tablets, or use interactive whiteboards. Smartphones are not allowed in school.
